Designation of a Notified Body pursuant to the Construction Products Regulation

From: Ministry of Development and

Investments, General Secretariat for Industry - Quality Policy

Directorate

Greece

20 Canning Street, 10200 Athens To:

European CommissionGROWTH Directorate-General

200 Rue de la Loi, B-1049 Brussels.

Other Member States

Reference:

Regulation (EU) No 305/2011 - Construction products

Body name, address, telephone, fax, email, website:

BUSINESS QUALITY VERIFICATION TESTING INSPECTION AND CERTIFICATION SERVICES PRIVATE COMPANY

114, 3RD SEPTEMVRIOU STREET, 11252

ATHENS

Greece

Phone: 00302102205124

Fax:

Email: info@bqv.gr Website: WWW.BQV.GR

Body:

NB 2884

Created: 23/09/2020 | Last update: 23/11/2020

The body is formally accredited against:

EN ISO/IEC 17065 - Product certification

Name of National Accreditation Body (NAB): ESYD

CONSTANTINOS PSYCHOGIOS - 00306945934609 - kpsychogios@bqv.gr

Tasks performed by the Body:

Last approval date: 02/01/2021

37/555/EC Cements, building limes and other hydraulic binders: - Common cements, including:-BRsPortland cement,-Portland-silica furme cements, Portland-silica furme cements, Portland-burnt shale cement, Portland-silica furme cement, Portland-burnt shale cement, Portland-silica furme cement, Portland-burnt shale cement, Portland-composite cements (preparation of concrete, mortar, grout and other mixes for construction and for the manufacture of construction products). 97/555/EC Cements, building limes and other hydraulic binders: - Special cements, Including-BR>-low heat cement, BR>-awa water resisting cement, BR>-white cement, BR>-awa water resisting cement, BR>-white cement, preparation of concrete, mortar, grout and other mixes for construction and for the manufacture of construction products). 97/555/EC Cements, building limes and other hydraulic binders: - Calcium aluminate cements (preparation of concrete, mortar, grout and other mixes for construction products). 97/555/EC Cements, building limes and other hydraulic binders: - Masonry cements (preparation of concrete, mortar, grout and other mixes for construction products). 98/214/EC Structural metallic products and anciliaries (1/4): - Structural metallic sections/profiles with various shapes (T. L. H. U. Z., I. channels, angle, hollow, tubes), falt products (plate, sheet, strip), bars, castings, forgings made of various metallic materials, unprotected or protected against corrosion by coating (to be used in metal structures or in composite metal and concrete structures). 98/214/EC Structural metallic products and anciliaries (2/4): - Structural metallic construction members: finished metallic products bearing plies and sheet piling, cut to size sections designed for certain applications, and rails and sleepers. They can be	Decision	Product family, product/Intended use	AVCP system	Technical specification
Hydraulic road binders (preparation of concrete, mortar, grout and other mixes for road bases stabilisation). 97/555/EC Cements, building limes and other hydraulic binders: Common cements, including-SBR>-Portland cement, EBRPortland composite cements. Portland-slig cement, EBRBatting as cement, Portland-burnt shale cement, EBRBatting as cement, Portland-burnt shale cement, EBRBatting cements, EBRPozzolanic cements, SBR>-Composite cements (preparation of concrete, mortar, grout and other mixes for construction and for the manufacture of construction products). Cements, building limes and other hydraulic binders: Special cements, Including-SBR>-White cement, EBR>-saw atter resisting cement, EBR>-white cement, EBR>-saw atter resisting cement, EBR>-white cement, EBR>-saw atter resisting cement, EBR>-white cement (preparation of concrete, mortar, grout and other mixes for construction and for the manufacture of construction products). Product Calcium aluminate cements (preparation of concrete, mortar, grout and other mixes for construction products). Product Cartification Body (System 1+) Structural metallic products and ancillaries (1/4): Structural metallic sections/profiles with various shapes (T. L. H., U, Z., I. channels, angle, hollow, tubes), flat products (plate, sheet, shrip), bars, castings, forgings made of various metallic materials, unprotected or protected against corrosion by coating (to be used in metal structures or in composite metal and concrete structures). Structural metallic products and ancillaries (2/4): Structural metallic construction members: finished metallic products such as trusses, girders, columns, stairs, ground piles, bearing piles and sheet piling, cut to size sections designed for certain applications, and rails and sleepers. They can be	97/555/EC	Building limes, including: -Calcium limes, -Dolomitic limes, -Hydraulic limes (preparation of concrete, mortar, grout and other mixes for construction and for the		EN 459-1:2010
Common cements, including;-SRX->Portland cement, ASR->Portland composite cements. Portland-slag cement, Portland-silica fume cement, Portland-bozzolana cement, Portland-limestone cement, Portland-burnt shale cement, Portland-limestone cement, Portland-burnt shale cement, ASR->Blastfurnace cements, ASR->Pozzolanic cements, SRSComposite cements (preparation of concrete, mortar, grout and other mixes for construction and for the manufacture of construction products). Product Certification Body (System 1+) Product Certification Body (System 1+) Cements, building limes and other hydraulic binders: Special cements, including;-SRX-low heat cement, CPRX-sea water resisting cement,-SRS-white cement,-SRS-sea water resisting cement,-SRS-white cement, (preparation of concrete, mortar, grout and other mixes for construction and for the manufacture of construction products). Product Certification Body (System 1+) EN 15743:2010+A1:20 EN 15743:2010+A1:20 Certification Body (System 1+) Froduct Certification Body (System 1+) Certification Body (System 1+) Froduct Certification Body (System 1+) Product Certification Body (System 1+) Certification Body (System 1+) Froduct Certification Body (97/555/EC	Hydraulic road binders (preparation of concrete, mortar, grout		EN 13282-1:2013 EN 15368:2008+A1:2010
Special cements, including:-BR>-slow heat cements,-BR>-sulfate resisting cement,-BR>-low alkali cement (preparation of concrete, mortar, grout and other mixes for construction and for the manufacture of construction products). 97/555/EC Cements, building limes and other hydraulic binders: - Calcium aluminate cements (preparation of concrete, mortar, grout and other mixes for construction and for the manufacture of grout and other mixes for construction and for the manufacture of construction products). 97/555/EC Cements, building limes and other hydraulic binders: - Masonry cements (preparation of concrete, mortar, grout and other mixes for construction and for the manufacture of construction products). Product Certification Body (System 1+) FOR Cements, building limes and other hydraulic binders: - Masonry cements (preparation of concrete, mortar, grout and other mixes for construction and for the manufacture of construction products). Structural metallic products and ancillaries (1/4): - Structural metallic sections/profiles: hot rolled, cold formed or otherwise produced sections/profiles with various shapes (T, L, H, U, Z, I, channels, angle, hollow, tubes), flat products (plate, sheet, strip), bars, castings, forgings made of various metallic materials, unprotected or protected against corrosion by coating (to be used in metal structures or in composite metal and concrete structures). Structural metallic products and ancillaries (2/4): - Structural metallic construction members: finished metallic products such as trusses, girders, columns, stairs, ground piles, bearing piles and sheet piling, cut to size sections designed for certain applications, and rails and sleepers. They can be	97/555/EC	Common cements, including: -Portland cement, -Portland composite cements: Portland-slag cement, Portland-silica fume cement, Portland-pozzolana cement, Portland-fly ash cement, Portland-burnt shale cement, Portland-limestone cement, Portland composite cement, -Blastfurnace cements, -Pozzolanic cements, -Composite cements (preparation of concrete, mortar, grout and other mixes for construction and for the	Certification Body	
Calcium aluminate cements (preparation of concrete, mortar, grout and other mixes for construction and for the manufacture of construction products). 97/555/EC Cements, building limes and other hydraulic binders: - Masonry cements (preparation of concrete, mortar, grout and other mixes for construction and for the manufacture of construction products). Product Certification Body (System 1+) Product Certification Body (System 1+) FPC Certification Body (System 2+) FPC Certification Body (97/555/EC	Special cements, including: -low heat cements, -sulfate resisting cement, -white cement, -sea water resisting cement, -low alkali cement (preparation of concrete, mortar, grout and other mixes for construction and for the manufacture of	Certification Body	EN 15743:2010+A1:2015
Masonry cements (preparation of concrete, mortar, grout and other mixes for construction and for the manufacture of construction products). Structural metallic products and ancillaries (1/4): - Structural metallic sections/profiles: hot rolled, cold formed or otherwise produced sections/profiles with various shapes (T, L, H, U, Z, I, channels, angle, hollow, tubes), flat products (plate, sheet, strip), bars, castings, forgings made of various metallic materials, unprotected or protected against corrosion by coating (to be used in metal structures or in composite metal and concrete structures). Structural metallic products and ancillaries (2/4): - Structural metallic construction members: finished metallic products such as trusses, girders, columns, stairs, ground piles, bearing piles and sheet piling, cut to size sections designed for certain applications, and rails and sleepers. They can be	97/555/EC	Calcium aluminate cements (preparation of concrete, mortar, grout and other mixes for construction and for the	Certification Body	EN 14647:2005/AC:2006
metallic sections/profiles: hot rolled, cold formed or otherwise produced sections/profiles with various shapes (T, L, H, U, Z, I, channels, angle, hollow, tubes), flat products (plate, sheet, strip), bars, castings, forgings made of various metallic materials, unprotected or protected against corrosion by coating (to be used in metal structures or in composite metal and concrete structures).
